

Hong Kong Fire Services Department continues to place trust in LION TotalCare™

Since 2010 the LHD Group Hong Kong Ltd. has been the supplier in providing protective garments and after sales service to the Hong Kong Fire Services Department. During this period the company has not only delivered more than 13, 000 sets of LION fire protective suits but also numerous other items of protective clothing. In addition, LHD is also the sole provider for the complete laundering and care of the protective clothing within the scope of a LION TotalCare™ contract to the Department. This has now been extended for several years.

Cologne, March 2017 – One of the largest fire services in the world is the Hong Kong Fire Services Department (HKFSD). The urban area of Hong Kong with its skyscrapers and high rise building canyons has an extremely high population density and as a result of the building structure presents a great challenge for fire service and rescue actions. “Therefore, it is clear that the HKFSD can make no compromises when it is the case of equipment.” says Daniel von Chamier (COO of the LHD Group Deutschland GmbH and Managing Director of LHD Group Hong Kong Ltd). “Through the branch of the LHD in Hong Kong we have been able to remain close to the customers in the Asian and Arabian regions.”

At the company’s location, several articles of firemen’s protective clothing are washed, impregnated, dried, inspected and, if required, repaired daily. The LHD collects the parts from the fire stations with its own vehicles and returns these within a short period of time. The local Service Delivery Team is made up of 30 employees, who are on call 365 days per year, 24 hours per day for emergencies. “We protect those who protect the people.” adds von Chamier. “And, this is quite normal when we, as service providers, have the same service times as our customer, who is there for the people at all times.”

In addition to the well-proven LION high performance protective suits, a decisive factor in favor of the LHD in the re-tendering was also the excellent service provided. Thus it can be said that the package was convincing and that the firemen in Hong Kong can look forward to a continuation of the good service from April 2017 onwards for several years and the high quality protective suits which have already proven their worth throughout the last seven years.

Company

The LHD Group Deutschland GmbH is a system partner providing holistic solutions and products in the sectors of professional and protective clothing. Whether uniforms or turn-out gear, personal protective apparel, workwear or corporate fashion, functionality, quality and a high level of wearing comfort are the benchmarks for modern and safe outfits.

Profile:

With its 360° all-encompassing approach, the LHD Group Deutschland GmbH provides all of the services involved in professional clothing management. Correspondingly, the company's offer extends far beyond supplying the customer with textiles. Whether corporate fashion, workwear, or personal protection apparel, the customer is given measurable added value – from the design, via the manufacture through to delivery and the return and refurbishment management for a multitude of textiles. Thanks to the combination of individual advice and logistic know-how based on an international approach and state-of-the-art technology, the customer is provided with a cost efficient, sustainable clothing concept. In this, each module can be chosen either individually or bundled as a package thanks to the modular construction principle.

Since June of 2016, the LHD Group Deutschland GmbH has been a subsidiary of Kantaras Investments Pte. Ltd., an investment company with branch focus on the field of international textile processing. The largest subsidiary of Kantaras, Sritex, with main offices in Indonesia with a turnover of 589 million US\$ in 2014 encompassing 9 spinning mills, 3 weaving mills, 3 dyeworks and 8 clothing production factories is the largest textile company in South East Asia.
